

N-400 Continuation

Part 11, Question 7, A & B (Have you ever not filed a federal, state, or local tax return since becoming a lawful permanent resident?)

Since becoming a lawful permanent resident I have not necessarily always been required to file a federal, state, or local tax return either because I did not work or because I was not required to file because my income was below the required amount to file.

Therefore, I am indicating on my application for naturalization, in part 11, that I did not file a federal, state, or local tax return every year since becoming a lawful permanent resident. I have always filed a federal, state, or local tax return when required to do so.
